Email: training@geokon.com
Phone: +1 (603) 448-1562

\*Registration will be confirmed individually, on a first-come, first-served basis!

**Course Overview:** Join us for a two-and-a-half-day Inclinometer Immersion Course. This is an introductory course geared toward new users. You will walk away from this course with an understanding of our manual and in-place inclinometer systems. We will cover everything from basic components to data reduction. This is an active training course with an emphasis on hands-on learning.

Course Materials: All course materials and demonstration equipment are provided by GEOKON.

**Format:** This class is in-person only, at GEOKON headquarters in Lebanon, NH. We are not offering a virtual or hybrid option at this time. Class time will consist of lectures and hands-on demonstrations.

\*GEOKON will provide a continental breakfast and lunch at these times.

## Inclinometer Immersion Course (Continued)

Meals: GEOKON will provide a continental breakfast and lunch on September 27th and 28th.

**Price:** This is a free class, open to members of related industries. Please note that class size will be limited to 10 people. Registration will be confirmed individually, on a first-come, first-served basis.

Language: Class instruction will be available in English only at this time.

**Cancellation Policy:** Cancellations must be made by Saturday, August 27, 2022, preferably sooner (at least 30-days prior to the start of class).

**Certification:** Our training sessions do not award certification upon completion. We can provide a letter stating subject matter covered and that you attended the course, per request. GEOKON is strictly a manufacturer and all information provided is from the manufacturer's perspective. Our personnel has installation experience, but we do not certify installers nor is GEOKON a certifying body for instrument installation. Currently, our training sessions are not CEU accredited.

**Our Location:** For a map and directions to the GEOKON Visitor Center, please see: https://www.geokon.com/Location
