

MINING INSTRUMENTATION

APPLICATIONS

- Pore pressures
- Lateral deformation
- Settlement
- Seepage
- Earth pressure
- Moisture and oxygen

FILTERED TAILINGS

GEOKON manufactures a complete range of reliable, high-quality geotechnical and structural instrumentation suitable for monitoring Filtered Tailings. Our GeoNet

wireless data acquisition system and hosted data platform offers efficient collection of, and secure access to, all sensor data via the Internet and GEOKON OpenAPI.

1 MEMS Vertical IPI String

2 Inclinator Casing

3 Heavy Duty Piezometer

4 Earth Pressure Cell

5 Distributed Fiber Optic 3D Sensor

6 VW Settlement System

7 Time Domain Reflectometry Cable

8 TDR Data Logger

9 GeoNet Wireless LoRa® Data Loggers, Data Acquisition System
